INTRODUCTION

Hello, I' am Phat. With 2 years of experience in the IT-Helpdesk field, I have developed a solid foundation in information technology and problem-solving abilities. Now, I am looking to apply and expand my skills in the field of web development, where I can contribute not only technically but also creatively.
I hope I can be a member of your company so that I can develop myself as the right developer and consultant to also contribute to the development of the company.
